

633 ACCU-PRO REEL GRINDER

FOLEY

ACCURATE AUTOMATED EFFICIENT

Accuracy Elevated With the 633 ACCU-Pro

Combining precision grinding with easy setup, this solution offers versatile spin and relief grinding to keep reels sharp and aligned to OEM spec. Intuitive controls and a robust design make it a trusted choice for consistent performance.

Specs

Length	95" (242cm)
Width	52" (133cm)
Height	70" (178cm)
Weight	1,920 lbs
120v Power	✓
220v Power	✓

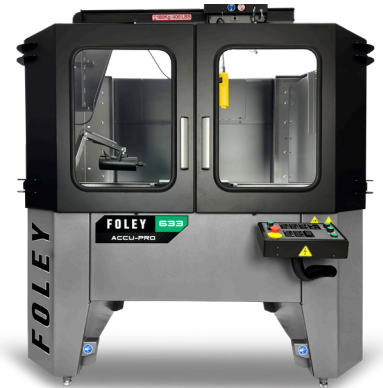

Optional Features:

Rear Lift Table - Eases lifting and positioning of heavy reels.

Overhead Boom (Electric) - Enhances maneuverability for reel handling.

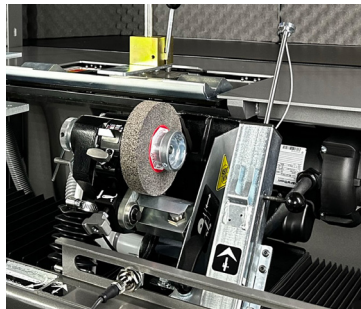

Dust Collection System - Keeps the workspace cleaner by capturing debris.

Standard Controller - Manual operation.

ACCU-Touch 3 Controller

Automate your grinding process with intuitive controls, fast setup, and custom programs that deliver precise, consistent results with minimal effort.

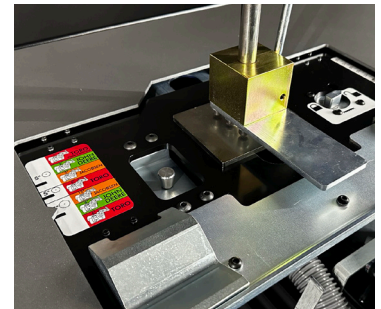

ACCU Positioning Gauge

Achieve perfect alignment every time with fast, easy reel positioning that ensures accurate grinding results and minimizes setup time.

Counter Balanced Spin Drive

Smooth grinding, stable control, and precise results with a counter-balanced spin drive that minimizes vibration for optimal performance.

ACCU Reel Selector

Quickly align reels with the ACCU-Reel Selector for fast setup, accurate positioning, and consistent grinding results every time.
