

TORO®**INFINITY® RAZOR™ KITS**

Extend the frequency of digging up and leveling sprinklers with the Toro® INFINITY Razor kits. Over time the application of topdressing and settling can result in the sprinkler being in a depression below grade level. This can interfere in the natural roll of the ball, create trip hazards and take away from the natural beauty of the course. The Razor kits are designed to raise the top of the sprinkler in 1/2" increments up to 1 1/2" (3 stages) without digging!!

FEATURES & BENEFITS

- ✓ Eliminates sprinkler interference
- ✓ Eliminates trip hazards
- ✓ Enhances course appearance
- ✓ Huge labor savings – no digging required!
- ✓ Retention features – hardware never gets lost
- ✓ Smart Access® compartment enables access to pilot valve, Lynx® Smart Module, wire splices and more!
