

GO WHERE YOU NEED TO WORK.

Access confined spaces you never thought possible with a wheeled Dingo® compact utility loader. These models offer zero-turn capability, along with a shorter length that's easy to load on a trailer. You also get reliable hydraulic power to use a wide range of attachments. If you do a lot of tasks in tight spaces or on hard surfaces, these are the models for you.

DINGO CONTROLS

Responsive controls make the wheeled Dingo highly maneuverable:

- 1 Curl or dump the attachment while raising or lowering the loader arms.
- 2 Raise and lower loader arms.
- 3 Traction drive control.
- 4 Activate the auxiliary circuit control lever to power the attachments instantly.

HIGHLY MANEUVERABLE

Short wheelbase design offers excellent maneuverability. Get into tight spaces where only hand labor could go before.

TWO TRANSPORT SPEEDS

Low speed sends more hydraulic The integrated ride-on operator power to the attachment and high speed sends more power to the wheels. The low speed option also helps new operators shorten their learning curve.

IMPROVED VISIBILITY

platform allows improved visibility of the working area and attachments.

4-PAW™ INDEPENDENT **FOUR-WHEEL DRIVE**

Four independent wheel motors deliver hydraulic flow and pressure to all four wheels for improved traction and mobility. Fewer moving parts also mean less maintenance.

Available on 323 and 320D only.
