

Eliminate sprinkler interference with the outcome of the game forever! Toro's INFINITY Stealth Kits can be installed onto any INFINITY sprinkler allowing turf growth directly atop the sprinkler to eliminate the hard surface bounce should a golf ball hit it. The seamless turf appearance adds to the beauty of the course and improves labor efficiency by minimizing trimming efforts around the sprinklers.

FEATURES & BENEFITS

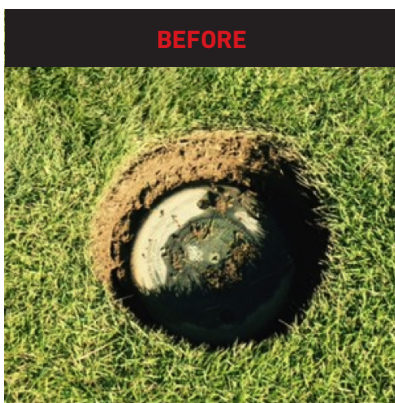

- ✓ Eliminates sprinkler interference
- ✓ Enhances course appearance
- ✓ Increases labor efficiency
- ✓ Kit fits existing INFINITY sprinklers
- ✓ Easy access to arc adjustment, snap rings, riser removal assembly, valve and rock screen
